

Scalar Wave Technology

www.aplicum.com

Introduction

If you want to find the secrets of the universe, think in terms of energy, frequency, and vibration.

- Nikola Tesla

Through several years of research of historic documents, experiments, and cooperation with other researchers, we have developed a line of Scalar Wave based devices that harness the cosmic energy present all around us to our benefit. Our products are effective in helping to improve your lifestyle, health, general wellbeing and to help you fulfill your goals in life. All our devices are user friendly and completely safe to use.

This brochure serves as a guideline on how to use various Scalar Wave Devices, their capabilities, and some basic information about the Scalar Wave technology. Further details are available on our website www.aplicum.com

We thank you for choosing our products and we are confident you will have an amazing experience using them!

Scalar Wave field shapes

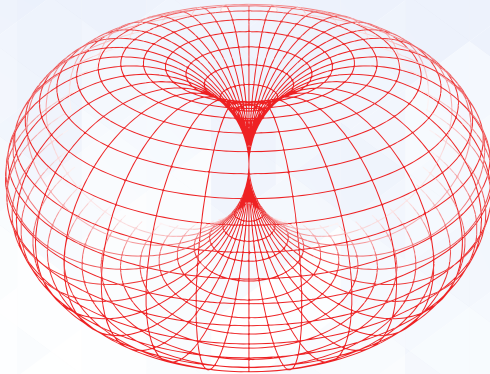

Scalar Waves can be manipulated into several different shapes using precise geometric patterns. Such fields can then be used for several different applications such as and not limited to the following;

- Neutralizing negative effects of EMF and 5G radiation.
- Increasing efficiency of manifestation.
- Helping to improve your immune system and general wellbeing.
- Helping to mitigate chronic pain and migraines.
- Energizing healing crystals and water.
- Helping to improve sleep quality.
- Scalar wave and bioenergy healing therapies.
- Helping to decrease depression and anxiety.

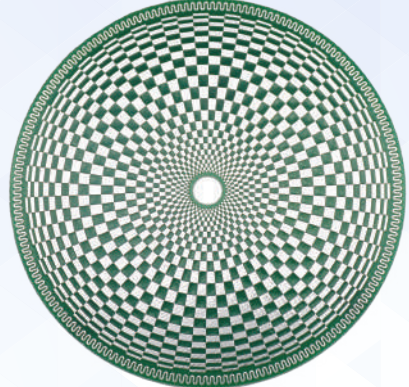

The most commonly used Scalar Wave field modifiers are vortex discs, torus discs, and aetheric concentrators. These tools can be used in conjunction with each other to achieve the desired effect.

Scalar Wave Torus field

A Scalar Wave torus field has the geometry that roughly resembles a donut. Torus fields can be generated using Scalar Wave torus field discs. Torus fields are moderately concentrated energy fields that are excellent for protecting against EMF and providing harmonizing effects on a cellular level.

Torus field shape

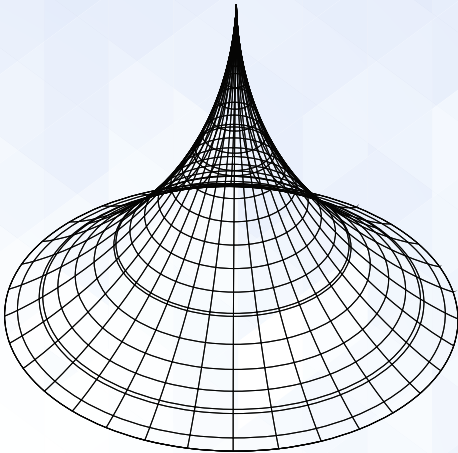

Torus field disc

Did you know that the shape of Earth's magnetic field is in the shape of a torus? Torus geometry is present all around us in nature. Even the human auric field is in the shape of a torus. In a torus field, the energy flows in a closed-loop, which makes it a very energetically efficient system.

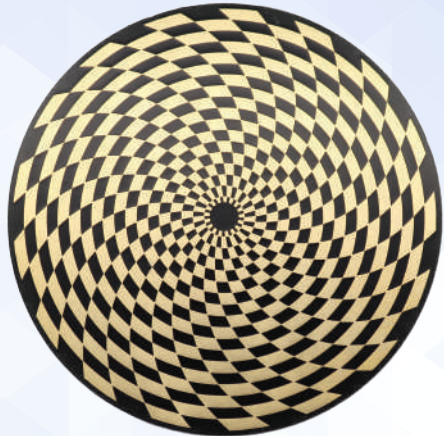

We regularly implement torus field discs into our Scalar Wave based devices.

Scalar Wave vortex

Unlike Torus fields, the Scalar Wave vortex fields are not a closed-loop system and are thus good at emitting energy which can be used for charging various objects like water, healing crystals, etc.. In essence, a vortex field resembles an inverted tornado in 3D space.

Vortex field shape

Vortex field disc

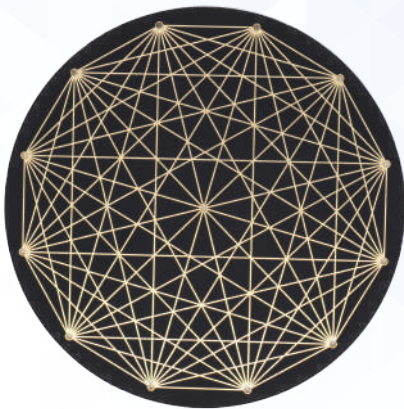

Vortex fields are excellent at energizing items that are put on or above the vortex field disc. However, they are not as suitable for EMF protection and harmonization as the torus fields. We recommend using torus discs for energizing water, healing crystals, and similar.

Aetheric concentrators - tesseracts

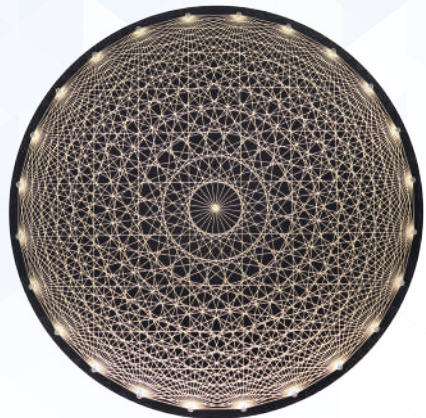

Tesseracts concentrate the scalar field to high intensity. Think of them as lenses for scalar waves. When tesseract geometry is exposed to the Scalar Wave Field it will concentrate it towards the center. Tesseracts are also known as 'aetheric pumps'

The effect occurs regardless of the type of field the tesseract is exposed to. For example, the tesseract will concentrate both torus, vortex, and non-modified (linear) scalar wave field.

The most commonly used tesseracts are 12 and 24 pointed geometries. The difference between them is that the 24 pointed tesseracts will generate a more concentrated field compared to a 12 pointed one.

12 pointed tesseract

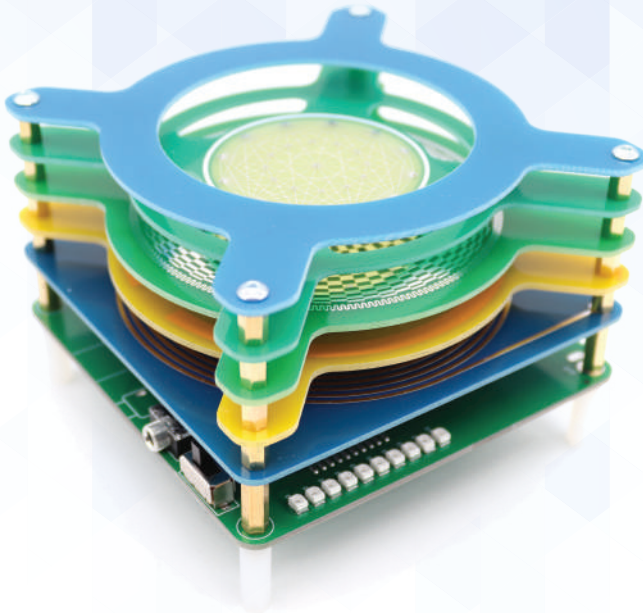

24 pointed tesseract

Scalar Wave devices

Aplicum scalar wave devices have been designed with different purposes in mind. What they have in common is that they use Scalar Waves at their core. All of them feature at least one of the Scalar Wave discs and an actively powered emitter. These devices are more powerful than passively powered discs (discs that harness the energy from the environment).

Aplicum Scalar Wave devices are designed to work with the Aplicum 65mm diameter orgone energy discs. Our goal is to use a standardized system in order to present you with the most effective and user-friendly experience.

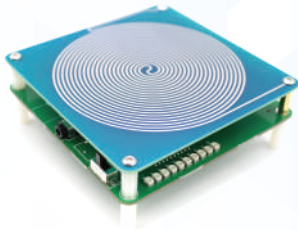

Orgone Charging Stations

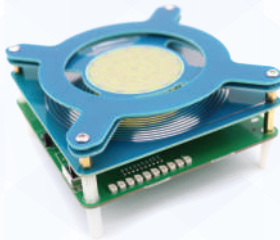

Orgone charging stations are primarily meant to recharge orgone energy discs. With use, the orgone discs lose their energetic potential. This is especially true if you are using them for protection against negative energy, EMF, or other types of cleansing. An orgone charging station will recharge your orgone discs back to its full potential.

Besides recharging orgone discs, the charging stations can also be used to charge water, healing stones, orgone pyramids, and similar. An important thing to note when using the Aplicum orgone charging stations is that the object you are charging has to be as centered as possible to the tesseract geometry on the upper part of the charger.

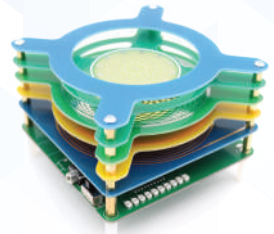

We have 3 different types of charging stations available.

*Bifilar Coil
Charging Station*

*Orgone Charging
Station*

*Orgone Charging
Station with MWO*

Bifilar Coil Charging Station

Instructions

Bifilar coil charging stations are general-purpose scalar wave emitters without any kind of field modifiers installed. They are most suitable for charging larger objects over a longer period of time. Example use would be recharging a 'tower buster' orgone device or several liters of water.

When using the bifilar chargers please follow the following guidelines;

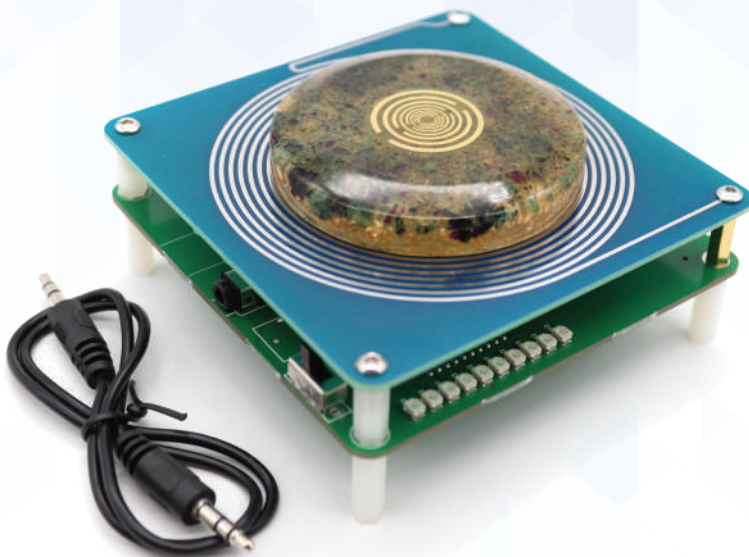

- 1)** Insert 3x AA 1.5V batteries to the battery compartment on the bottom side.
- 2)** Connect the charger to a frequency source via included 3.5mm standard audio cable. A source of frequency can be a computer running a frequency generating application or playing an audio file. Other sources that support a 3.5mm standard audio connector can also be used.
- 3)** Please make sure no conductive object is in direct contact with the bifilar coil.
- 4)** Place the object you wish to charge directly on the bifilar coil. Try to position it as close to the center as possible.
- 5)** Maximum recommended amount of water you can charge at once is 1.5l. When charging water try to avoid using plastic bottles.
- 6)** Charging time for water is 15-30 minutes per 0.5l of water. Charging time will depend on the quality of the water you are using.

Bifilar Coil Charging Station

Instructions

7) Do not operate the device for more than 45 minutes at a time.

8) For selecting recommended frequencies please refer to the table on page 17. The waveform of the input signal must always be 'sine'. Square, triangle, and sawtooth waves are of artificial nature and will not work. These 3 waveforms are also the reason why EMF is so detrimental to our health. Our bodies are only acclimated to 'sine' waveform which has no violent transitions.

Orgone Charging Station

Instructions

Aplicum orgone charging stations are an upgraded version of the Bifilar Coil Charging Stations. They feature a Bifilar Tesla Coil emitter coupled with 12 pointed tesseracts aetheric pump and an opening at the top for 65mm orgone energy discs. They are specifically designed to energize orgone energy discs and can also be used as a manifestation device.

When using the Bifilar Chargers please follow the following guidelines;

- 1)** Insert 3x AA 1.5V batteries to the battery compartment on the bottom side.
- 2)** Connect the Charger to a frequency source via included 3.5mm standard audio cable. A source of frequency can be a computer running a frequency generating application or playing an audio file. Other sources that support a 3.5mm standard audio connector can also be used.
- 3)** Please make sure no conductive object is in direct contact with the tesseract aetheric pump.
- 4)** Place the orgone energy disc in the opening at the top.
- 5)** If charging water, please use a glass that fits into the opening.
- 6)** Charging time for a regular glass of water is 10-15 minutes. There is no need to charge water for longer than that.

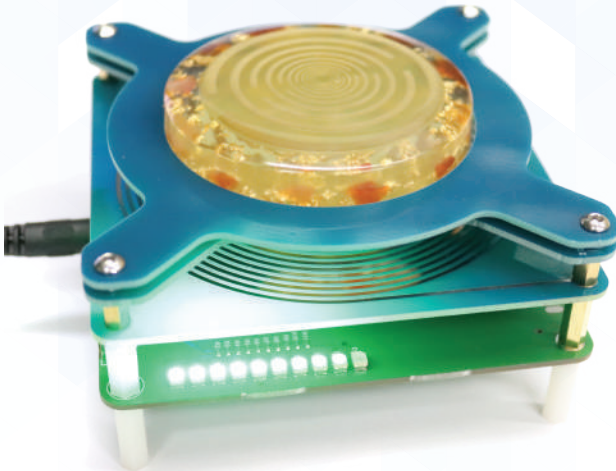

Orgone Charging Station

Instructions

7) When using the Orgone Charging Station as a manifestation machine, place the picture or text related to the wish under the orgone energy disc. It is advisable to use an orgone energy disc with chakra stones related to your wish. Alternatively, you can also use clear quartz orgone discs. Clear quartz will be suitable in most cases although it may not be as effective compared to a specific stone that correlates with the nature of your wish.

8) For selecting optimum frequencies, please refer to the frequency table on page 17.

9) Performing manifestation during meditation will have a positive effect on the outcome.

Orgone Charging Station with MWO

Instructions

The ultimate version of Aplicum Orgone Charging Stations! These Chargers are equipped with bifilar Tesla Coil Scalar Wave Emitters, Lakhovsky MWO antenna, Scalar Wave torus field disc, and a tesseract aetheric pump. Orgone Charging Stations with MWO produce a concentrated Scalar Wave torus field oscillating at multiple harmonizing frequencies.

These devices can be used to harmonize and energize orgone energy discs and healing crystals, as manifestation tools and for infusing homeopathic pellets with aetheric energy.

When using the bifilar chargers please follow the following guidelines;

- 1)** Insert 3x AA 1.5V batteries to the battery compartment on the bottom side.
- 2)** Connect the Charger to a frequency source via included 3.5mm standard audio cable. A source of frequency can be a computer running a frequency generating application or playing an audio file. Other sources that support a 3.5mm standard audio connector can also be used.
- 3)** Please make sure no conductive object is in direct contact with the tesseract aetheric pump.
- 4)** Place the orgone energy disc, glass of water, or healing crystals in the opening at the top.
- 5)** If charging water, please use a glass that fits into the opening.

Orgone Charging Station with MWO

Instructions

- 6)** When using the Orgone Charging Station with MWO as a manifestation machine, place the picture or text related to the wish under the orgone energy disc. It is advisable to use an orgone energy disc with chakra stones related to your wish. Alternatively, you can also use clear quartz orgone discs. Clear quartz will be suitable in most cases although it may not be as effective compared to a specific stone that correlates with the nature of your wish.
- 7)** For selecting optimum frequency, please refer to the frequency table on page 17.
- 8)** Performing manifestation during meditation will have a positive effect on the outcome.
- 9)** When energizing homeopathic pellets, please use the 'Homeopathic Pellet Tool'. It is designed to perfectly align the pellet containers with the field, in order to achieve the best possible results.
- 10)** After charging the pellets, they should be placed in a Homeopathic Shielded Container in order to avoid the charge to dissipate.

Charging homeopathic pellets

Instructions

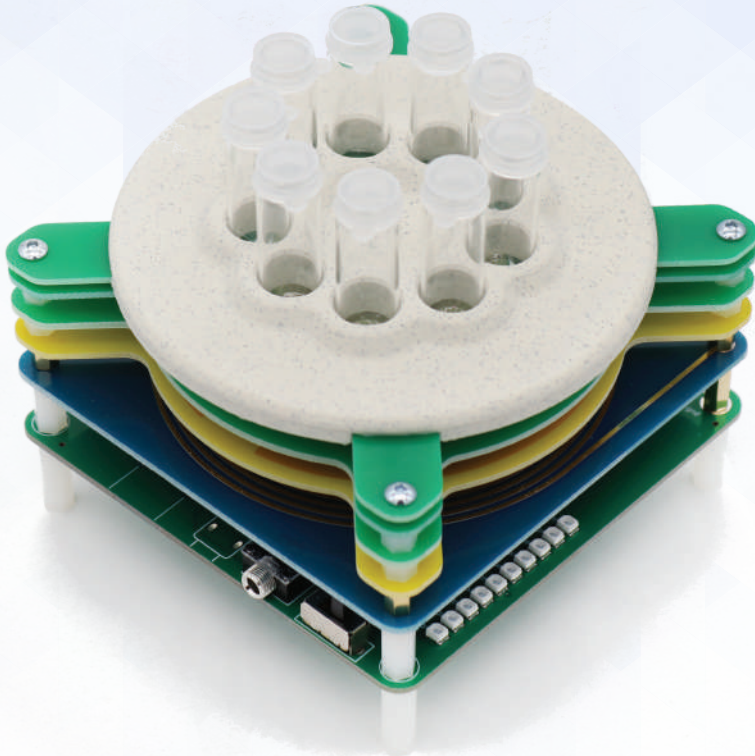

Orgone Charging Station with MWO has been designed to be able to charge homeopathic pellets with aetheric energy. In order to properly charge the pellets please follow these instructions carefully.

- 1)** The charging station should be prepared according to the instructions on pages 12 and 13.
- 2)** Please insert the Homeopathic Pellet Charging Attachment to the top of the Orgone Charging Station.
- 3)** Pellets must be inserted into the glass vials. It is essential that you sterilize glass vials and lids before starting the charging procedure. The recommended way to sterilize the vials is to place them in boiling water for 10 minutes. Vials should be dried before you put in the pellets. Please make sure that you dry the vials in a sterile environment.
- 4)** Fill the sterile glass vials with your homeopathic pellets and seal them with lid. Vials should be inserted into the slots in the Homeopathic Pellet Charging Attachment. There are 9 slots available, it is recommended that you distribute the pellets equally between 9 vials.
- 5)** Recommended charge frequency is 7.83Hz (Schumann frequency) and its harmonics (14.10 Hz and 20.30 Hz) and Solfeggio note at 528 Hz. You can also use other specific frequencies that are described in the table on page 17.
- 7)** After charging is complete, vials should be stored in shielded Homeopathic Pellet Containers. These storage units will preserve the charge for a long time.

Orgone Charging Station with MWO

Instructions

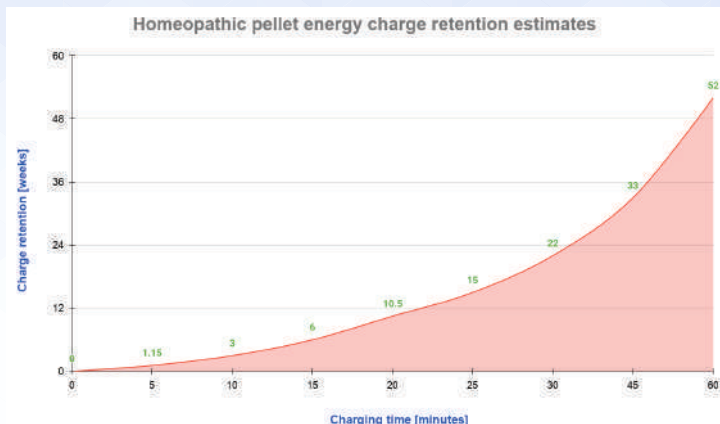

The following picture indicates a correct setup of the Orgone Charging Station with MWO in the homeopathic pellet charging mode of operation.

Charging homeopathic pellets

Energy charge retention estimates

The following graph and table indicate the estimated charge retention periods for the homeopathic pellets. Values are given for pellets stored in Homeopathic Pellet Storage Container. After the given time period, the energy level will drop below 50% of the original level.

Charge time	Duration of charge
5 minutes	8 days
10 minutes	21 days
15 minutes	42 days
20 minutes	73 days
25 minutes	105 days
30 minutes	154 days
45 minutes	231 days
60 minutes	365 days

Frequency selection table

You can refer to the table below for selecting the frequency input for your Scalar Wave devices. These are the most commonly used frequencies, but you are also encouraged to experiment with your own frequency choices.

The most important thing to note when feeding the signal to any of the Scalar Wave devices is that the waveform should always be 'sine' (analog) and not 'square', 'sawtooth', 'triangular' or any other artificial signal waveform.

Frequency	Effect / function
7.83 Hz	Charging water, healing stones, pellets
176 Hz	Pain relief, relaxation
285 Hz	Sleep improvement, regeneration
386 Hz	Body harmonization
417 Hz	Negative energy neutralization
528 Hz	Cleansing, healing, DNA repair
639 Hz	Improved meditation experience
741 Hz	Anxiety relief
825 Hz	Boost to intuition and intellect
963 Hz	Energization, awakesness

Frequency selection table

When using Schumann frequency (7.82 Hz), you can also use the second and third harmonic (14.1 and 20.3 Hz). SWCC (Scalar Wave Cosmic Communicator) has an onboard integrated Schumann frequency generator that cycles between 7.83, 14.1, and 20.3 Hz.

Scalar Wave Modular Systems

Aplicum Scalar Wave Modular Systems are a collection of different Scalar Wave Coil Modules, electronic amplifiers, and Scalar Wave field modifiers. They are designed to be as versatile as possible and can be used in a myriad of ways, here are only a few examples;

- Providing Reiki / Scalar Wave / Crystal healing therapies.
- Scalar wave and bioenergy healing therapies.
- Increasing efficiency of manifestation.
- Helping to improve your immune system and general wellbeing.
- Helping to mitigate chronic pain and migraines.
- Energizing healing crystals and water.
- Helping to improve sleep quality.
- Use as a critical component in the radionics healing machine.
- Helping to decrease depression and anxiety.
- Generating large scale harmonization bubbles.
- Projecting pyramid energy field.

Orgone charging stations can also be used as nodes in Scalar Wave Systems.

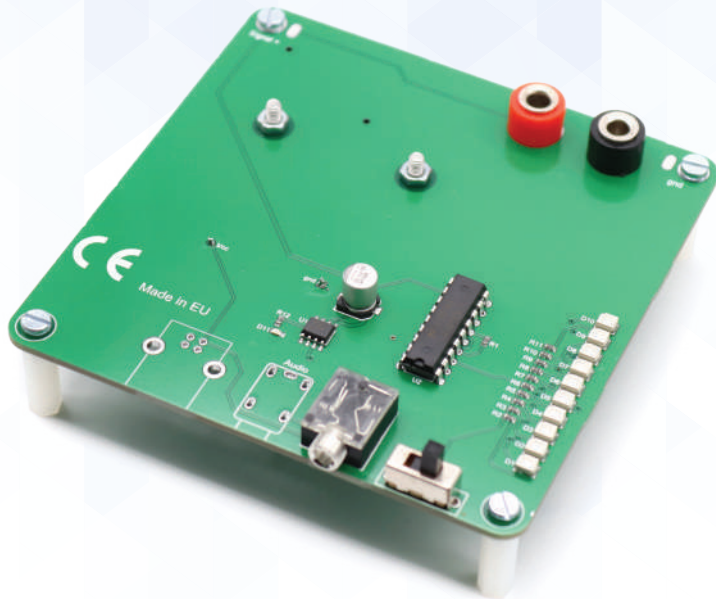

Amplifiers for Scalar Wave Coils

Single Coil Amplifier Module

A basic amplifier module is suitable for powering a single Scalar Wave Coil Module. The amplifier is powered by 3x AA batteries and accepts audio input via a 3.5mm standard audio connector. It comes with a 10 green LED power level indicator.

Scalar Wave Coil Module can be connected to it via 4mm banana connectors. When a proper connection is established and no audio input is present all LEDs will be off. If there is a problem in connection all LEDs will light up and indicate an error.

Amplifiers for Scalar Wave Coils

Dual Coil Amplifier Module

Dual coil amplifier modules can have up to 2 Scalar Wave Coil Modules connected at once or a single Dual Coil Module.

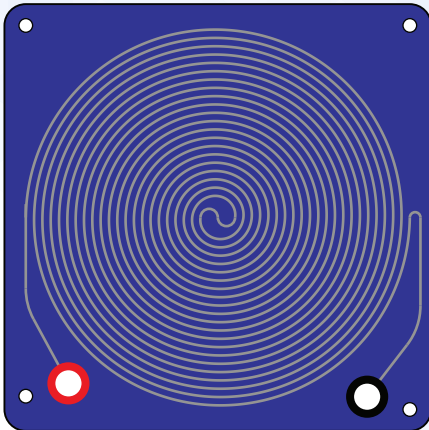

Power is provided by 3x AA batteries or optionally via USB type B cable. The amplifier has a three-color LED power level indication for each coil and two 3.5mm audio connector ports. Several Dual Coil Amplifier Modules can be daisy-chain connected with a shared frequency signal. Using such a setup, large scale energy fields can be established. This includes the possibility of projecting the pyramid energy field over a larger area.

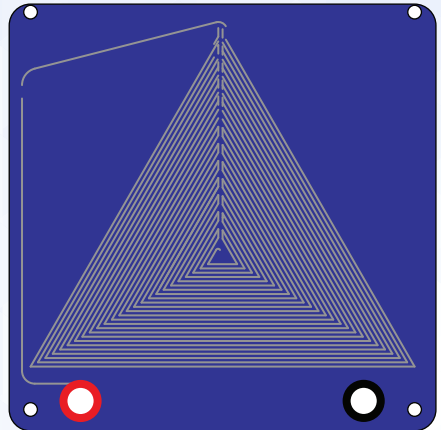

Scalar Wave Coil Modules

List of available Bifilar Coil Modules

Aplicum has several different Scalar Wave Coil Modules available. Each of these modules can be connected to the output of either single or dual-channel amplifier modules using 4mm banana plug connectors.

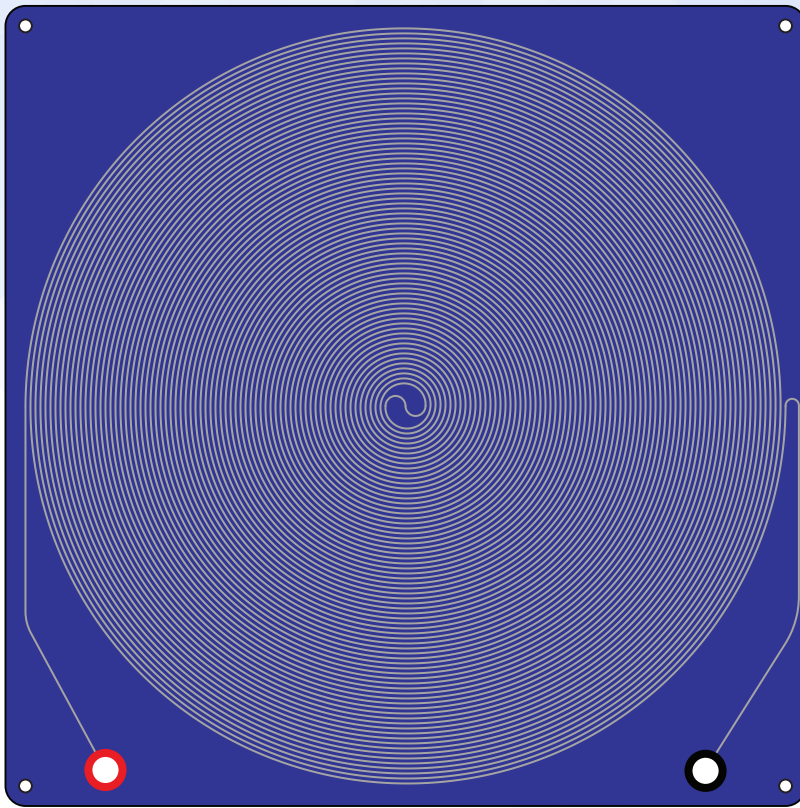

*100mm Bifilar Scalar Wave
Coil Module*

*100mm Triangular Bifilar
Scalar Wave Coil Module*

Scalar Wave Coil Modules

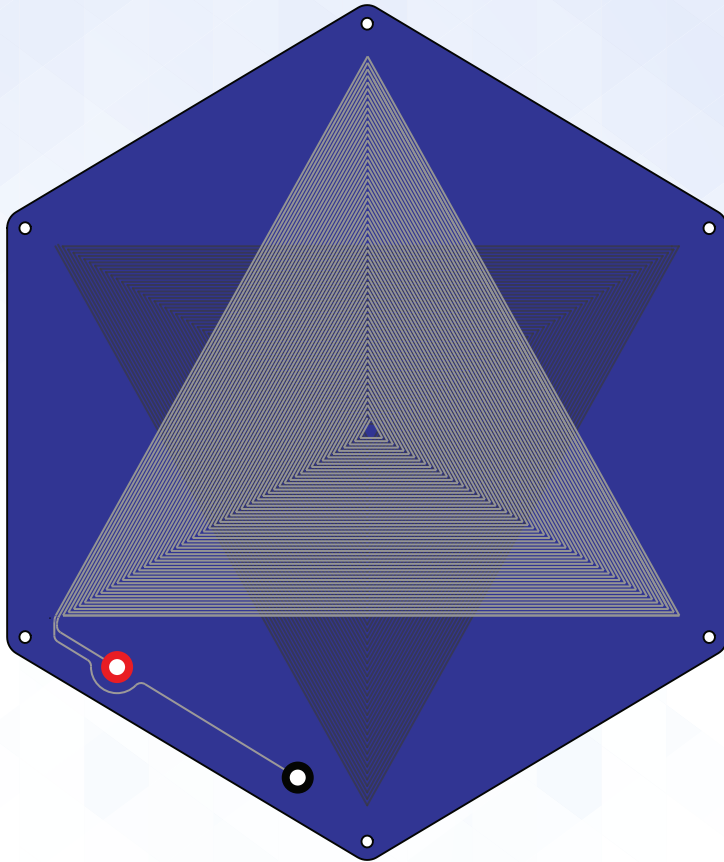

List of available Bifilar Coil Modules

200mm Bifilar Scalar Wave Coil Module

Scalar Wave Coil Modules

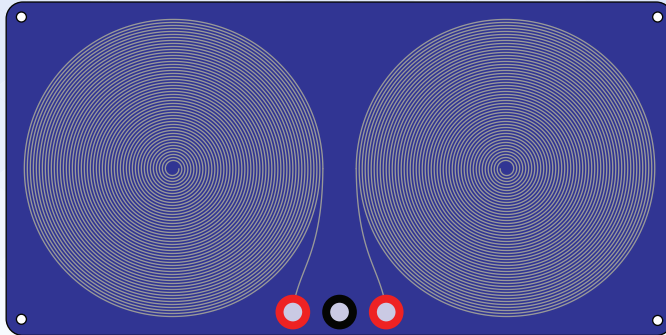

List of available Bifilar Coil Modules

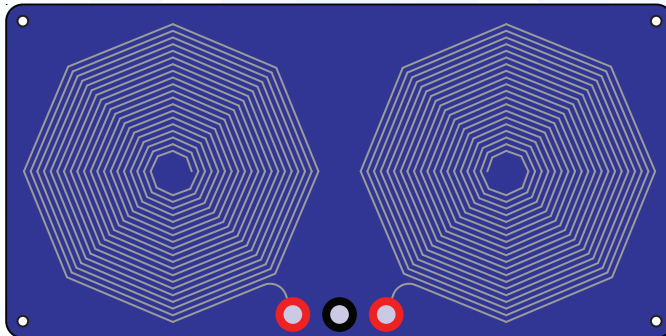

193mm x 229mm Double Triangular Scalar Wave Bifilar Coil Module

Scalar Wave Coil Modules

List of available Unifilar Coil Modules

200x100mm Double Unifilar Scalar Wave Coil Module

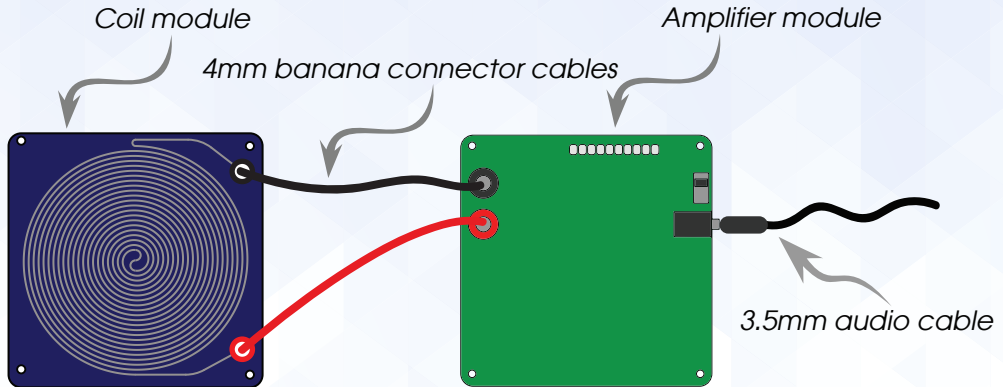

200x100mm Double Unifilar Octagonal Scalar Wave Coil Module

Unifilar Scalar Wave Coil Modules will also generate a magnetic field when powered on. They are thus also suitable for providing magnetic therapies.

Scalar Wave Coil Modules

Connecting Single Coil Amplifier to Bifilar Coil Module

Please follow the diagram below when connecting the Single Coil Amplifier module to a Single Scalar Wave Coil module.

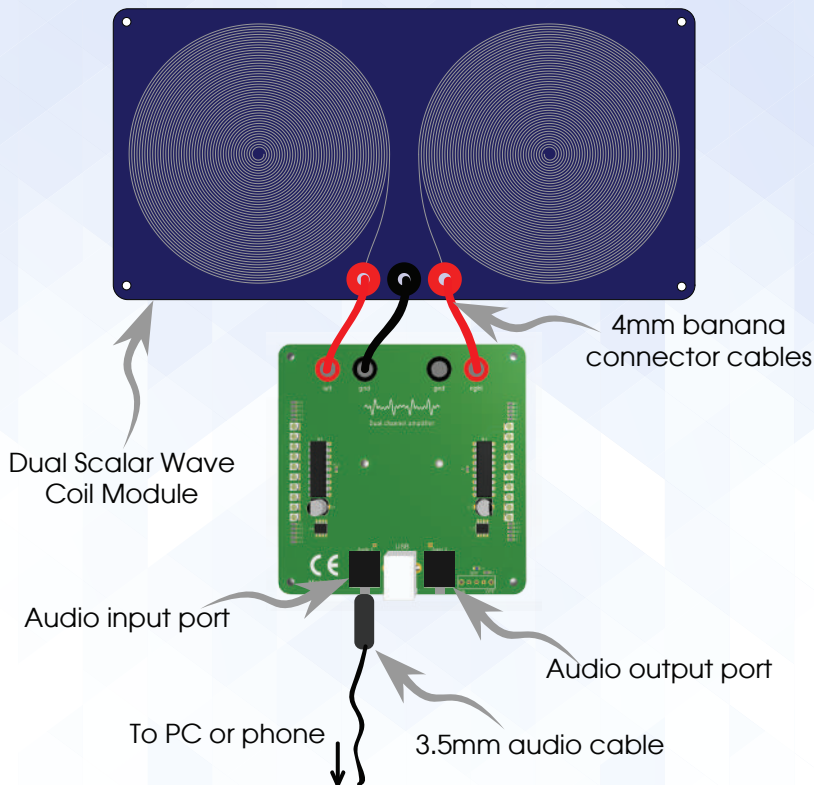

If a proper connection is established, the LED indicator on the Amplifier Module will not light up when the module is powered and no signal is provided. If all LEDs light up this is an indicator of error, in that case, please check connections.

This connection setup can be used for all single coil modules, including the 200mm Bifilar Coil and 200mm Double Triangular Bifilar Coil Modules.

Scalar Wave Coil Modules

Connecting Dual Coil Amplifier to Dual Unifilar Coil

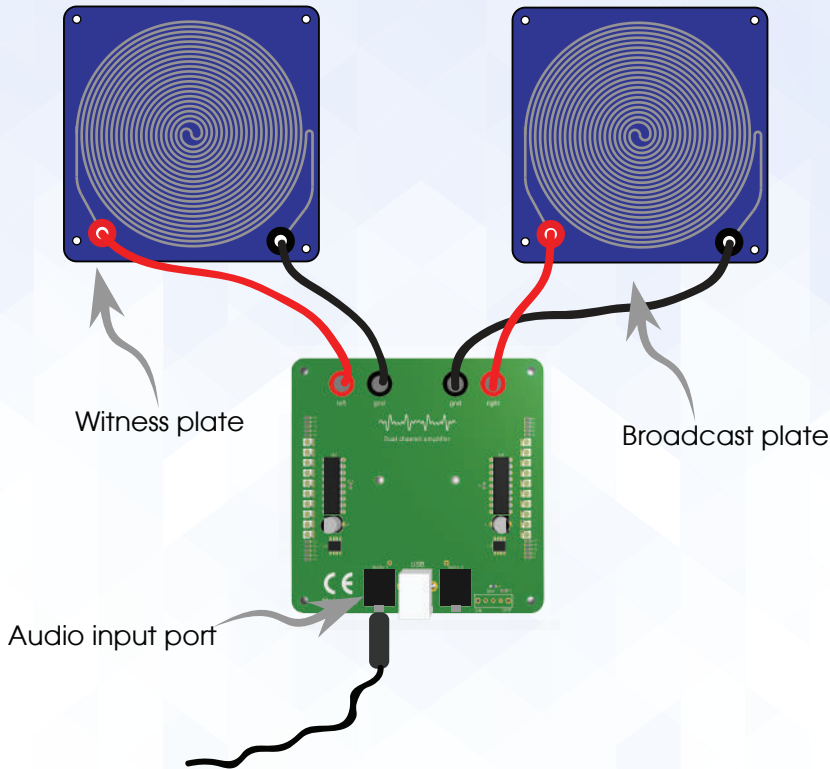

The ground terminals (gnd) are internally connected, thus you can use either of the 2 on the Amplifier module.

The audio output port can be connected to an audio input port on another Amplifier module.

Scalar Wave Coil Modules

Connecting Dual Coil Amplifier to 2 single Bifilar Coils

Setups with 2 Bifilar Scalar Wave Coil modules are excellent for providing healing therapies with orgone energy discs or orgone pyramids. They can also be used as radionics devices. Where the left coil serves as 'witness plate' and the right one as 'broadcast plate'.

Scalar Wave Coil Modules

Broad Area Field Projection

Broad area field projection is a technique where several Amplifier Modules and Coil Modules are daisy-chained together to share the same frequency source. This way we can project the Scalar Wave field over a larger area.

Usually, such setups are only used in therapy rooms due to the fact the precision is of paramount importance when setting them up. Thus it is recommended that such setups are permanently installed.

Sketch on page 29 depicts a Pyramid Energy Field Projector. Similar setups can be used with more modules as well.

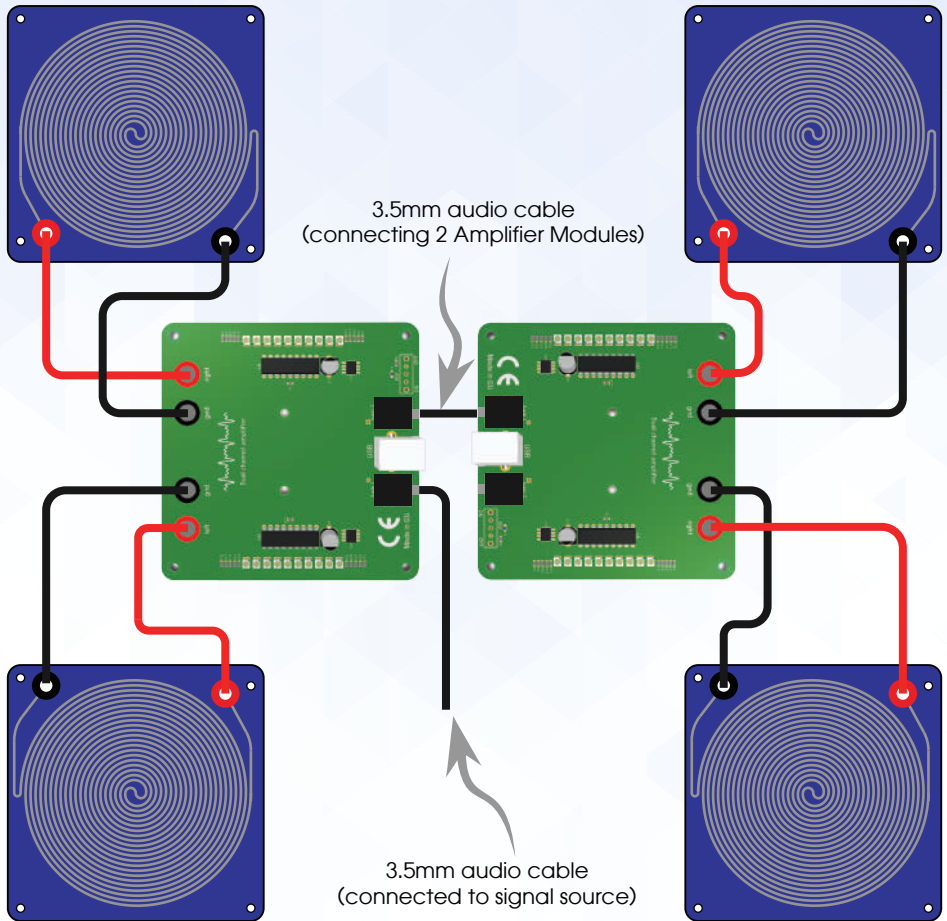

When Using more than 4 Bifilar Coil Modules it becomes necessary to add a 300mm Tesseract board in the middle. Tesseract serves as a field stabilizer.

Following guidelines should be followed when setting up field projectors;

- 1)** Bifilar Coil Modules must be equally spaced apart from each other. This is an essential part of the setup.
- 2)** It is advisable that the Amplifier Modules are USB powered to ensure each module is operating at the same power.
- 3)** Bifilar Coil Modules should not be more than 1.5m (5ft) apart from each other.
- 4)** the Same type of Bifilar Coil Modules have to be used (you can not combine a regular Bifilar Coil with a Triangular one).
- 5)** Tesseract in the middle will stabilize the established field.

Scalar Wave Coil Modules

Pyramid Energy Field Projector

Scalar Wave Cosmic Communicator

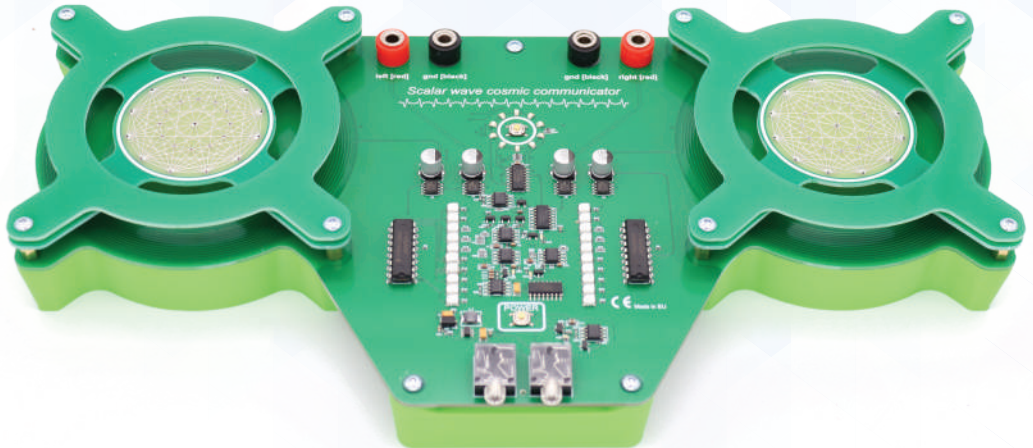

Introduction

Scalar Wave Cosmic Communicator (SWCC) is a Scalar Wave generating device that connects with the Universe on an energetic level.

With an on-board Schumann Frequency Cycle Oscillator, 4 independent amplifier modules, several Scalar Wave Field Modifiers, and 2 power level indicators it is a strong radionics tool.

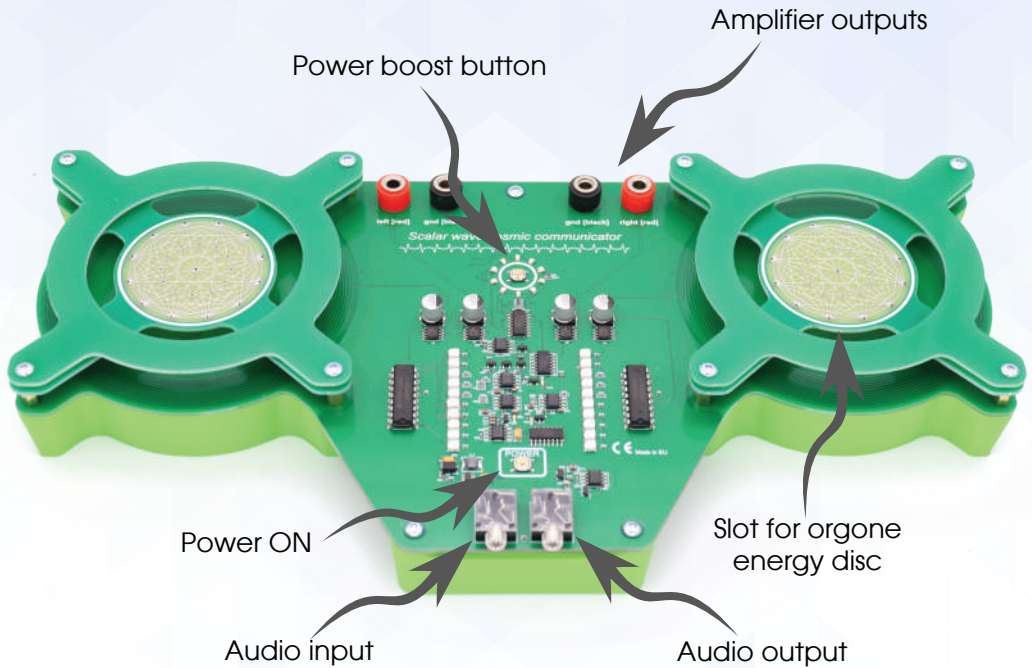

SWCC can be used in a number of ways and does not need to be connected to an external signal source for basic operation since it has integrated oscillators. It can also provide amplified outputs for external coil modules.

SWCC supports two 65mm diameter orgone energy, discs which can be inserted into the orgone disc slots.

Scalar Wave Cosmic Communicator

Description

Scalar Wave Cosmic Communicator

Instructions

The basic operation of SWCC can be executed with SWCC in a standalone configuration due to the onboard Schumann Frequency Cycle Oscillator.

For first time users it is recommended to start with the basic operation which is described in the following guidelines;

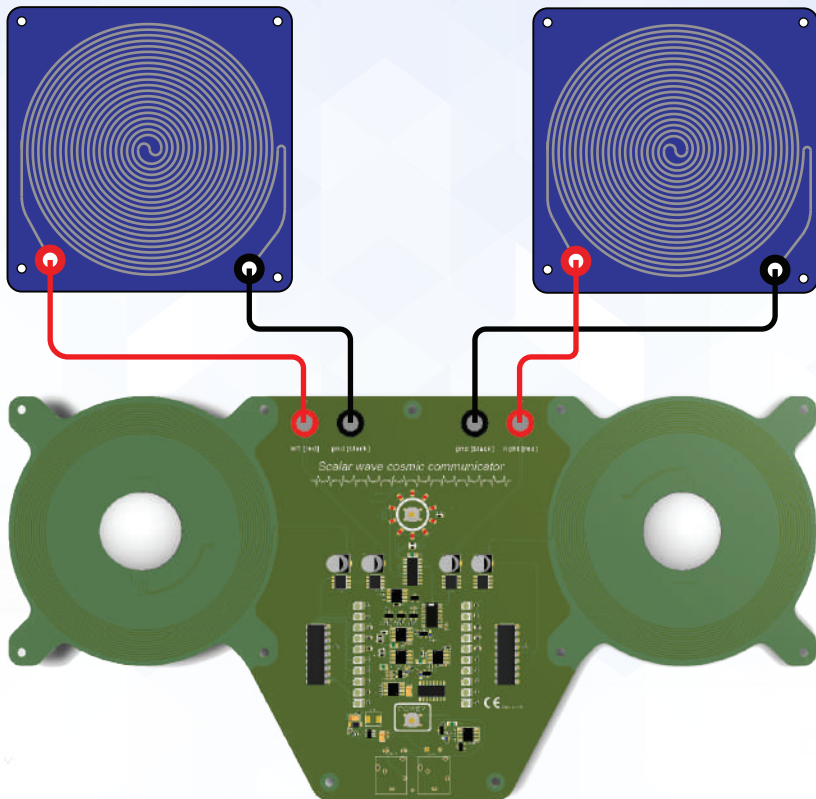

- 1)** SWCC is powered by 3x AA batteries (1.2 - 1.5V per cell). Insert batteries into the battery holder in the bottom. Please make sure the polarity of the batteries is correct. Polarity is marked on the black battery holder on the bottom side of the SWCC. If batteries are properly inserted and fully charged, the SWCC should power on automatically.
- 2)** Insert orgone energy discs in the corresponding slots. If you are using it as a manifestation device, you can place a picture or text related to the wish below the orgone energy disc.
- 3)** If you are using SWCC to charge water or healing crystals, there is no need to use orgone energy discs. Just insert the glass of water or healing crystals in the slots normally reserved for orgone discs.
- 4)** Power boost button can be pressed in order to increase or decrease the power of SWCC. By default, the power boost option is on.
- 5)** SWCC has an onboard oscillator which will cycle between 7.83 Hz, 14.10 Hz, and 20.30 Hz. You can also connect the SWCC to an external signal source. In that case, the external source will take priority over the onboard oscillator.

Scalar Wave Cosmic Communicator

Instructions

SWCC can be used to power up to 2 external Bifilar Scalar Wave Coil Modules. Compatible are both 100mm and 200mm versions. The following diagram represents how 2 external coils should be connected to the SWCC.

When external coils are attached, the coils on the SWCC will still work normally.

Scalar Wave Cosmic Communicator

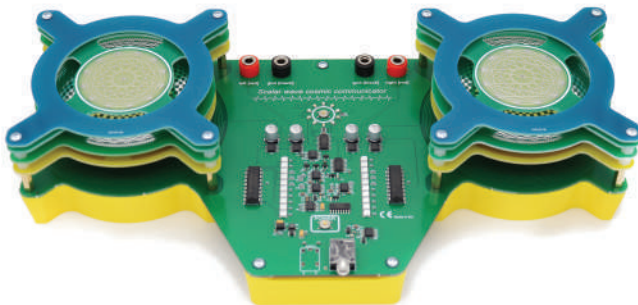

Conclusion

If you are using an external frequency source, you can refer to the frequency selection table on page 17. Choosing the right frequency will help you achieve the desired results quicker.

Technical specifications;

- | | |
|-------------------------|---------------------------------------|
| • Power source: | 3x AA batteries (1.2 - 1.5V) |
| • Signal source: | Internal, 3.5mm audio port (external) |
| • Amplifier count: | 4x |
| • Orgone disc slots: | 2x |
| • Scalar Wave Emitters: | 2x |
| • Amplified outputs: | 2x |

SWCC is a modular system at its core. Thus it can be upgraded with various Scalar Wave Field Modifiers or Lakhovsky MWO discs. Such upgrades are desired when the SWCC is being used for a specific purpose. For example during Reiki sessions or crystal healing therapies.

An upgraded version of the SWCC with Lakhovsky MWO discs
