

HOW THE UNKNOWN GOD Formatted the Human Body

The Unknown God that is outside the time/space continuum continuously blesses the soul: MONAD, self, God/Man Christ, every nanosecond of time or even faster than that, which is actually the Unknown God cleansing the soul: MONAD, self, God/Man Christ, of all the false materialistic concepts and ideas that blurs it from viewing the spiritual essence that governs its raison d'être (reason for living).

For all intent and purpose the MONAD is the soul, self, God/Man Christ, which the Shechinah's (Divine Presence) ten (10^2) square matrix is a commentary on; thus, the human body is a commentary on the Shechinah's (Divine Presence) ten (10^2) square matrix.

This paper is a sequel to the previous paper I wrote on the MONAD¹. The Shechinah's (Divine Presence) matrix symbolizes the soul's two-part psyche: ego-consciousness and the unconscious mind, which literally creates in the phantasmagoria of the psyche a dualistic reality of opposites. **The outer world (blank abyss) does not exist, it never did exist, and it never will exist.** Every human being lives within the universe of his or her own psyche.

The Shechinah's (Divine Presence) matrix is perfectly aligned numerically on all four sides of the brain, which is encased in the SKULL: East (Occipital Lobes), North (Right Parietal and Temporal Lobes), South (Left Parietal and Temporal Lobes), and West (Frontal Lobes).

¹ THE MONAD (#1) Silently speaks out about the Whole Universe,
https://www.academia.edu/41737293/THE_MONAD_1_Silently_speaks_out_about_the_Whole_Universe

As it can be envisaged in the above images the Shechinah's (Divine Presence) matrix actually symbolizes simultaneously the three swastikas: Female, Neutral, and Male. Also, the Shechinah's (Divine Presence) matrix emanate out the nine major magic square, which forms the Shechinah's (Divine Presence) matrix, which I will not discuss in this paper. However, these three swastikas are seen going from east to west; whereas, they can also be formulated from north to south; thus, do not look at the Shechinah's (Divine Presence) matrix from any one perspective. The reason why I show these swastika images is to point out why human bodies have two arms and two legs; because, human beings thinks and travel right or left (180°) from each other that is politically analogous to Democrats and Republicans, which is why the HANGED MAN in the Major Arcana Tarot Cards is hanged by his foot and why Saint Peter was hanged upside down. If the reader studies the human body, he or she will see that the arms and legs: Appendicular Skeleton, formats the Female and Male Swastikas; whereas, the Axial Skeleton (torso) is neutral and stationary. Also, note that the face has two-eyes, two-nostrils, two-ears, and two sets of teeth symbolizing the Kabbalistic Tree of Life, which is also in the Shechinah's (Divine Presence) matrix via sacred geometry, also there is the two cervices in the Axial Skeleton for getting rid of bodily waste: urinating and defecating.

To the right I have placed an image of the human hands, which are also formatted by the Shechinah's (Divine Presence) matrix. As it can be seen the nines (9s) surrounding the Shechinah's (Divine Presence) matrix symbolizes the fingers and the toes in the precise manner in which the Shechinah's (Divine Presence) matrix is structured. I did not want to be repetitious; thus, I did not mention the toes in this diagram.

Below on the next page I illustrate the Shechinah's (Divine Presence) matrix surrounded by other Shechinah (Divine Presence) matrices, which symbolizes the central matrix as the Earth; whereas, all the other twenty-six (26) matrices symbolize the star-studded universe (archival memory database of knowledge). I wrote a paper² on this image below symbolizing that the MONAD reveals the secret of the Unknown God and it illustrates how the ancient astrologers learned of the Precession of the Equinoxes.

The reader will have to do the mathematics of this matrix if they want to actually believe what I am conveying. The central matrix is colored coded symbolizing the Earth; thus, there will be twenty-six (26) other matrices surrounding the central matrix; thus, totaling twenty-seven (27) matrices. When the number 1s & 8s, 2s & 7s, 3s & 6s, 4s & 5s are totaled there are sixty (60) cells; whereas, all the nines (9s) total to forty (40) cells. Now the Shechinah's (Divine Presence) one-hundred (100) cell matrix cubes into a thousand cells (a large ALEPH \aleph_0); however, this would mean that $8 \times 60 = 480$ cells times $27 = 12,960$ cells. That is an incredible calculation; because, it is half of the Equinoctial cyclic year: 25,920 years. What are the odds that that would work out that way?

Do not forget to conceptually cube this square to 28^3

The central colored rubric cube symbolizes the Earth (LIGHT: i.e. NOW-Present) that is culled out of the un-manifested 'light of creation (archival memory database)'.

The other twenty-six (26) rubric cubes symbolizes the un-manifested 'light of creation (TIME: i.e. PAST)', which is the star-studded universe that symbolizes the unconscious mind's archival memory's database.

The totality of the nines (9s) symbolizes DARKNESS; whereas, the missing nines (9s), which would complete the second half of the Equinoctial Cycle is symbolized by the Vesica Piscis: i.e. 153.

However, the entire matrix cubed into twenty-six (26) matrices surrounding it, symbolizing the universe totals to $28^3 = 21,952$, which is short 3968-years of the 25,920 Equinoctial cyclic years; thus, what does 3968 years short of the 25,920 Equinoctial cyclic years mean? When 3968 is divided by 25,920 years the quotient is 0.153... The number 153 symbolizes the Vesica Piscis.

The yellow circle symbolizes the Earth and the star-studded universe; whereas, the black circle symbolizes the number nines (9s) that appears to be empty space. The absence of the 3968-nines obviously are present to complete the Vesica Piscis; however, those nines (9s) symbolize being outside the time/space continuum, which are not observable by consciousness that thinks within the time/space continuum.

The central part of this image symbolizing the Vesica Piscis that symbolizes the God/Man CHRIST. The DARKNESS symbolizes the unconscious mind; whereas, the LIGHT symbolizes ego-consciousness. Whereas, when these two spheres of thoughts communicate with each other via Active Imagination they mystically create Christ consciousness.

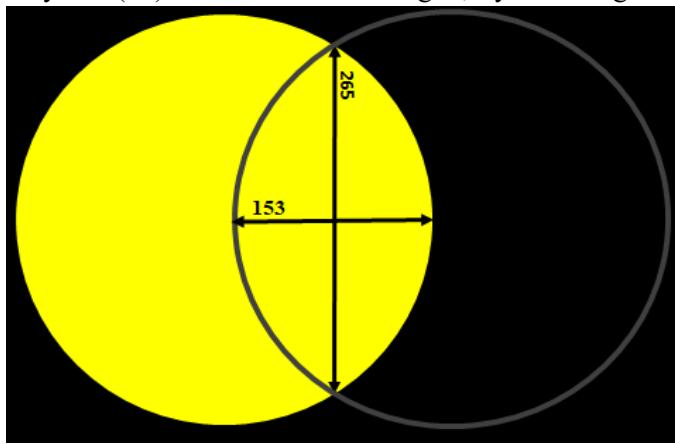

There is no doubt in my mind that the Vesica Piscis symbolizes the Human Skull: i.e. the Holy Grail. I recommend that the reader read THE SERPENT GRAIL³, by Philip Gardiner with Gary Osborn.

Believe it or not this is all laid out mathematically in the first eleven chapters of Genesis, which I have already written about in my paper on Saint Peter's Basilica and Bernini Square⁴.

Throughout the world in all times and climes the sacred scriptures from all cultures are based solely upon the Shechinah's (Divine Presence) matrix. Now to find out that the human body is mystically created by the Unknown God projects the human thinking process into an inexplicable mode of thought. All human beings think they are viewing the same universe; however, the fact that no human psyche is the same as another and everybody has different way of performing their skills literally indicates that everybody lives in a separate universe.

All human beings seem to look the same structurally; however, that most likely is a false perception; because, there is not a human being, including myself, that does not symbolize an animal. There are too many myths and fairytales going back into ancient times and the philosophy of the American Indians that more than suggest that all human beings are animals. Basically, living in our own personal universe we turn all these animals into what is known as the human species: SHAPE SHIFTERS.

Another important point to make about the Shechinah's (Divine Presence) matrix is that every city block in the USA and other countries symbolize its matrix. This literally demonstrates that humanity live psychically on the matrix in the city jungles of the world. The Shechinah's (Divine Presence) matrix is analogous to Aladdin's Carpet. There is no way of getting off that carpet. In fact, this Shechinah's (Divine Presence) matrix creates everything in the phantasmagoria of the psyche.
